

UNIVERSITY OF  
SASKATCHEWAN

# USASK Horizon Europe Information Session

USask International Office

Presenters: Le Li, Chantal Hanson, Leila Tang, Nataliia Zakharchuk

April 25, 2024

# Land Acknowledgement

The land is acknowledged as our Mother, the Earth. The University of Saskatchewan is committed to honor and support the \*Indigenous peoples, Indigenous cultures, Indigenous values, and Indigenous languages that belong to the land of Treaty 6 Territory and Homeland of the Métis. The University of Saskatchewan is committed to working towards mending colonized lands and protecting the land in a way that demonstrates honour, respect, and love. The University of Saskatchewan extends this commitment to the lands and Treaty territories (Treaties 2, 4, 5, 6, 7, 8, and 10) that constitute kisiskâciwan ([Saskatchewan], “the swift current”, Cree/Saulteaux), and all Indigenous people that call kisiskâciwan home. We are born to the land and the land claims us.

# Agenda

- Part 1: What has changed about the Horizon Europe for Canadian researchers?
- Part 2: What are the opportunities under Pillar 2?
- Part 3: Considerations and Recommendations
- Part 4: 5-Step-Approach to Horizon Europe Application
- Part 5: What can we do for you?

## Part 1:

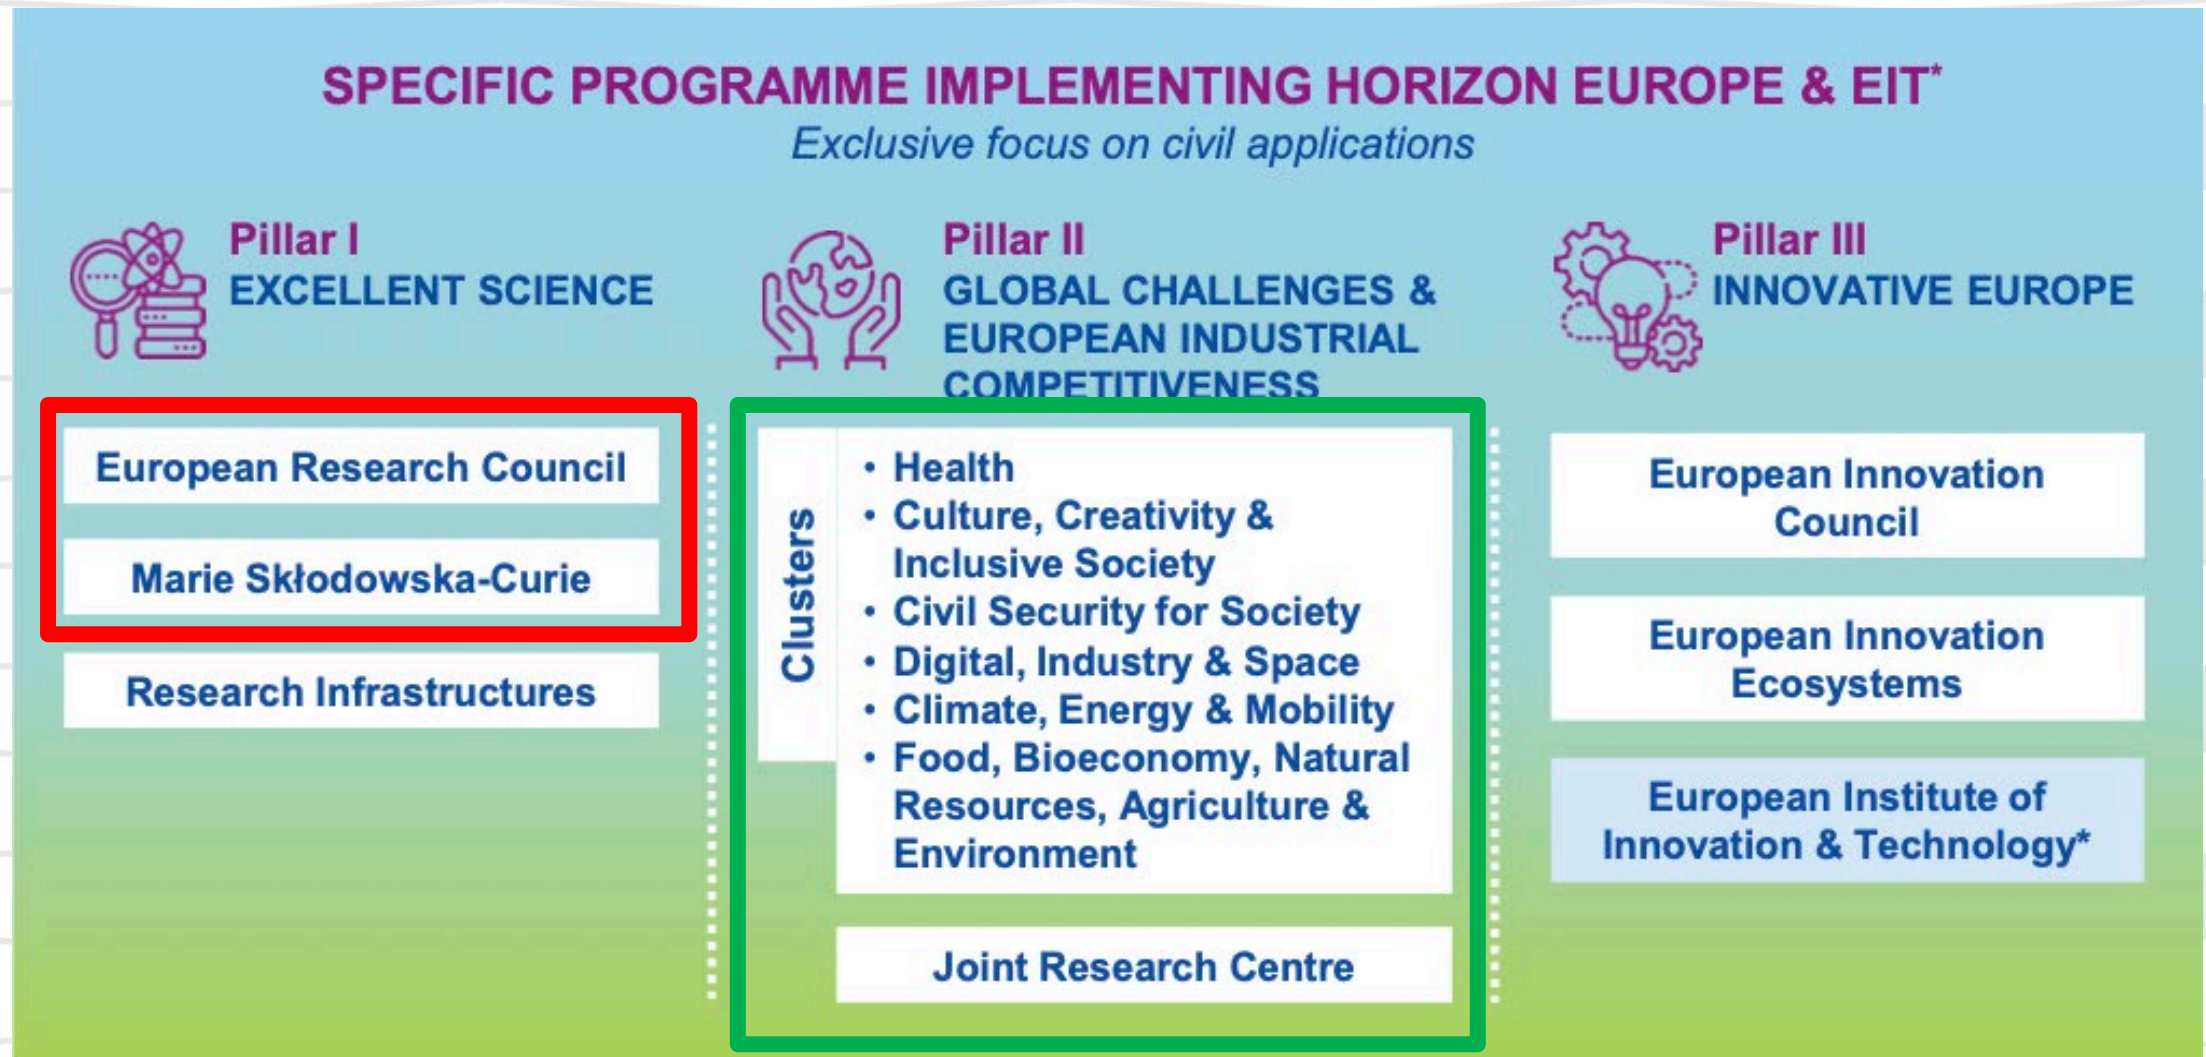

What has changed about Horizon Europe for Canadian researchers?

# General Overview

- *Horizon Europe is the world's largest research and innovation collaboration program, C\$140 billion (2021-2027).*
- *Canada is a deemed associated country participant to Pillar II project calls, with a budget of roughly C\$10 billion a year.*
- *Associated country means **Canadians can participate under equivalent conditions** as legal entities from the EU Member States and **receive grants directly** from the European Commission.*
- *Average grant size under Pillar 2 research calls: €3 million*
- Source: email from **Aslin Unlusoy** (she/her/elle) on March 28, 2024  
Conseillère (Science, Technologie et Innovation) | Counsellor (Science, Technology and Innovation)  
Mission du Canada auprès de l'Union européenne | Mission of Canada to the European Union

# What has changed and what has stayed the same?

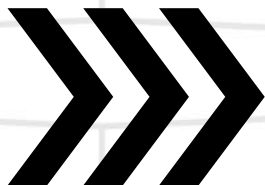

# Pillar 1: European Research Council Grants

## Quick facts

- Open to researchers conducting pioneering research projects
- Open to anyone, anywhere to establish a research group (for most grants, host institution must be established in EU member state or associated country)
- Work in someone else's lab – with European PI or Europeans to work anywhere in the world
- How to apply: [Step by Step to the ERC application process](#)

## Grant types

**Starting Grant:** up to €1.5 million. Duration: up to 5 years. 2-7 years of experience since completion of PhD.

**Consolidator Grant:** up to €2 million. Duration: up to 5 years. 7-12 years of experience since completion of PhD.

**Advanced Grant:** up to €2.5 million. Duration: up to 5 years. An excellent scientific track record of recognized achievements in the last 10 years.

**Synergy Grant:** 2-4 researchers (one can be based outside Europe). Up to a maximum of €10 million for a period of 6 years.

# Pillar 1: Marie Skłodowska-Curie Actions

## **Doctoral Networks and Staff Exchanges**

Networking and  
learning  
opportunities for  
doctoral candidates  
and staff in Europe  
and beyond

## **Post-Doctoral Fellowships**

For PhD holders  
who wish to carry  
out research  
activities abroad to  
acquire new skills  
and for career  
development

## **COFUND**

The COFUND action  
provides funding  
for regional,  
national and  
international  
programmes for  
training and career  
development

## **MSCA and Citizens**

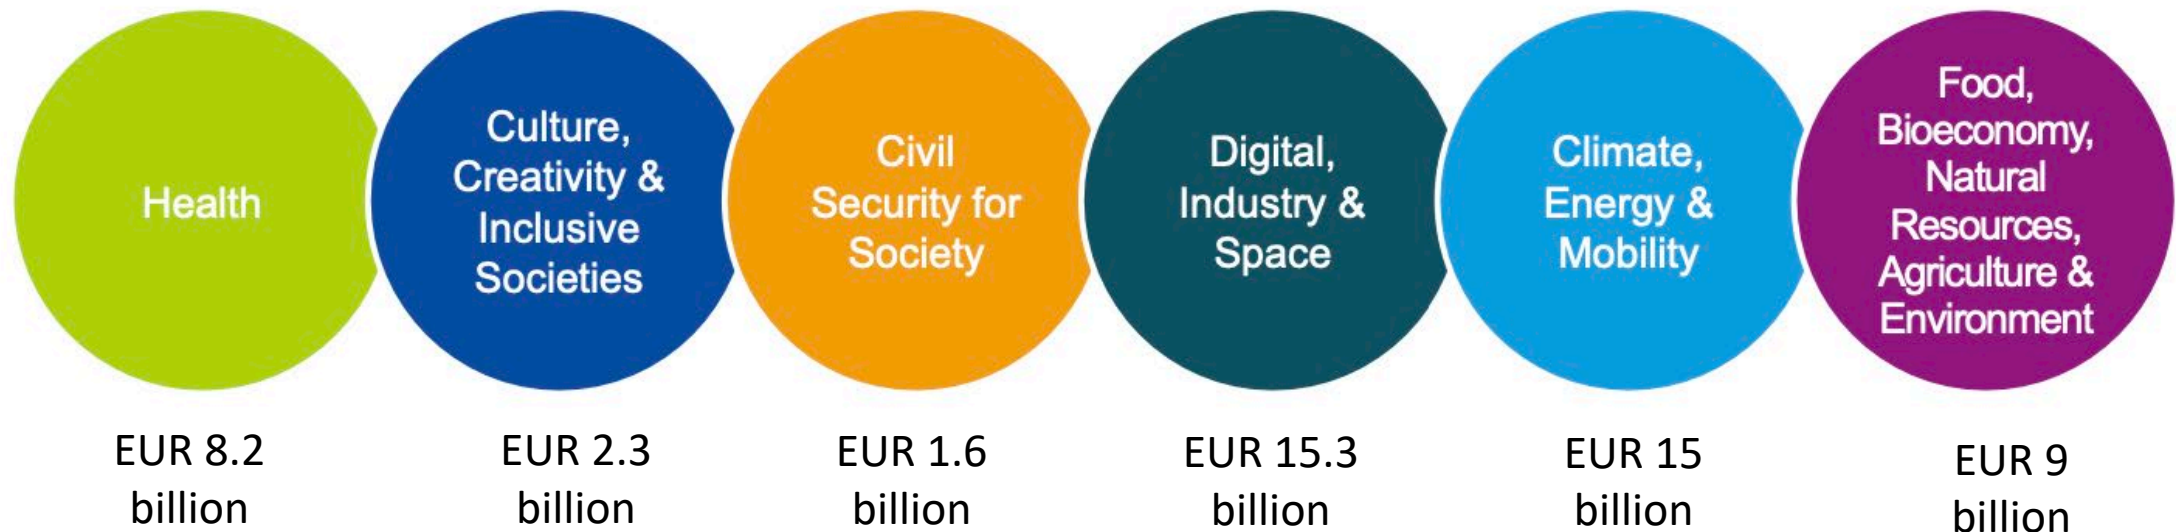

The objective of the  
MSCA and Citizens  
action is to bring  
research and researchers  
closer to the public at  
large, with a focus on  
families, pupils and  
students.

## Part 2

What are the opportunities  
under Pillar 2?

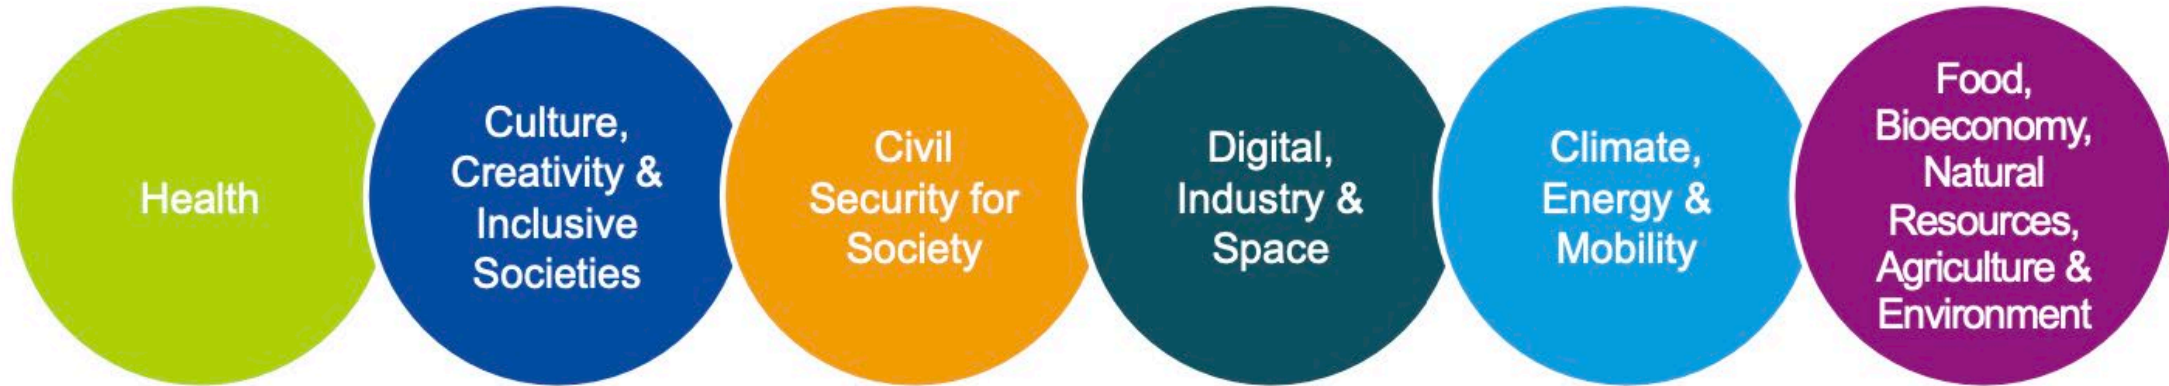

# Pillar 2: Global Challenges and European Industrial Competitiveness Clusters (53.5B Euros)

- The Canadian science, technology and innovation community can now apply to Horizon Europe Pillar 2 calls under association status.
- Eligible individuals and organizations are: academics, industrial researchers, small-to-medium sized enterprises, non-profit and charity sector entities, and other research and innovation actors in Canada

# 6 Clusters and Expected Impacts

## Horizon 2025-27 strategic plan

- Specific expected impacts of Horizon Europe are included in detail in the 2025-27 strategic plan
- The strategic plan might assist those developing proposals to frame their proposals to fit with Horizon's goals and strategy
- <https://op.europa.eu/en/web/eu-law-and-publications/publication-detail/-/publication/6abcc8e7-e685-11ee-8b2b-01aa75ed71a1>

# Technology Readiness Levels (TRL)

- Horizon Europe implements the use of Technology Readiness Levels (TRL) to assess the maturity and market readiness of new technologies and innovations. The TRL scale ranges from TRL 1 (the lowest level of technological maturity) to TRL 9 (the highest level which indicates full scale deployment and commercialization). Each funding call will state the expected TRL range for prospective projects.
- **Across Pillar 2, TRL levels will typically range between 3/6.**

Source: Mark Hurdley, Research Manager (International), University of Auckland CARA, April 3 webinar materials

## Pillar 2 – Types of projects

- HE funds different types of collaborative projects including, for example:

**Research and innovation action (RIA)** that establishes new knowledge or explores a new or improved technology, product, process, service or solution. The EU funding covers up to 100% of the project costs. Lower Technology Readiness Levels (TRL) and involve more basic research. Typically delivered over 3-4 years.

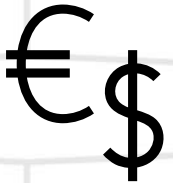

**Innovation action (IA)** that produces plans or designs for new or improved products, processes or services including prototyping, testing, demonstrating, piloting, large-scale product validation and market replication. The EU funding covers up to 70% of the project costs. Higher Technology Readiness Levels (TRL), where innovations or technologies are almost ready to be demonstrated in a controlled operational environment. Last around 3 years.

## Pillar 2 – Types of projects (cont'd)

**Coordination and support Actions (CSA)** that improve cooperation among EU and associated countries to strengthen the European Research Area including, for example, standardisation, dissemination, awareness-raising, communication and networking activities, policy dialogues, mutual learning or studies. The EU funding covers up to 100% of the project costs. This project type DOES NOT support research.

**Programme co-fund action (COFUND)** that provides multi-annual co-funding for [European partnerships](#) bringing together public and private partners. The EU funding covers between 30 and 70% of the project costs.

A program guide is available with more details: [https://ec.europa.eu/info/funding-tenders/opportunities/docs/2021-2027/horizon/guidance/programme-guide horizon en.pdf](https://ec.europa.eu/info/funding-tenders/opportunities/docs/2021-2027/horizon/guidance/programme-guide_horizon_en.pdf)

## Part 3

# Considerations and Recommendations

## How to become Horizon Europe ready?

- Excellent science
- Strategic partnerships and networking
- Research novelty

## Evaluation criteria

- Excellence
- Impact
- Quality and efficiency of the implementation

# To lead or not to lead?

Leading organization (Coordinator)'s administrative duties:

- Proposal development
- Consortium management
- Project planning and implementation
- Financial management
- Reporting and evaluation
- Dissemination and communication

# Time is (really) your BEST ally!

- Average 6 months to a year to organize a consortium and prepare a proposal
- Get familiar with Work Programmes (WP) before specific calls are open
  - WP 2021 – 2023 Closed
  - WP 2023- 2024 Current: **70+ call topics with upcoming submission deadlines**
  - WP 2025 Upcoming (Spring 2025)
  - WP 2026-2027 Upcoming
- Stay connected with EU collaborators for information

# Get support!

## External:

- **National Contact Points (NCPs)**
  - Guidance on choosing relevant Horizon Europe topics and types of action
  - Advice on administrative procedures and contractual issues
  - Training and assistance on proposal writing
  - Distribution of documentation (forms, guidelines, manuals etc.)
  - Assistance in partner search
- Horizon Europe Program Officers
- Canadian Trade Commissioners
- Representatives with the EU Delegation to Canada

## Internal:

- International Office
- College/school/centre research facilitation
- RASI
- IMP

# Dos and Don'ts

- Common mistakes to avoid: [https://rea.ec.europa.eu/news/common-mistakes-avoid-when-applying-horizon-europe-funding-2023-02-09\\_en](https://rea.ec.europa.eu/news/common-mistakes-avoid-when-applying-horizon-europe-funding-2023-02-09_en)
- Proposal writing tips:
  - <https://www.youtube.com/watch?v=OyG7UcjkFBs>
  - <https://www.youtube.com/watch?v=DeY8RSucJwl>
- Learn from previously funded projects: [www.cordis.europa.eu](http://www.cordis.europa.eu)

## Part 4

# 5-Step-Approach to Horizon Europe Application

# How to develop a Horizon Europe application?

**Step 1: Identify a call for proposal**

**Step 2: Build an eligible consortium**

**Step 3: Create an EU Login account and link it to the USask PIC**

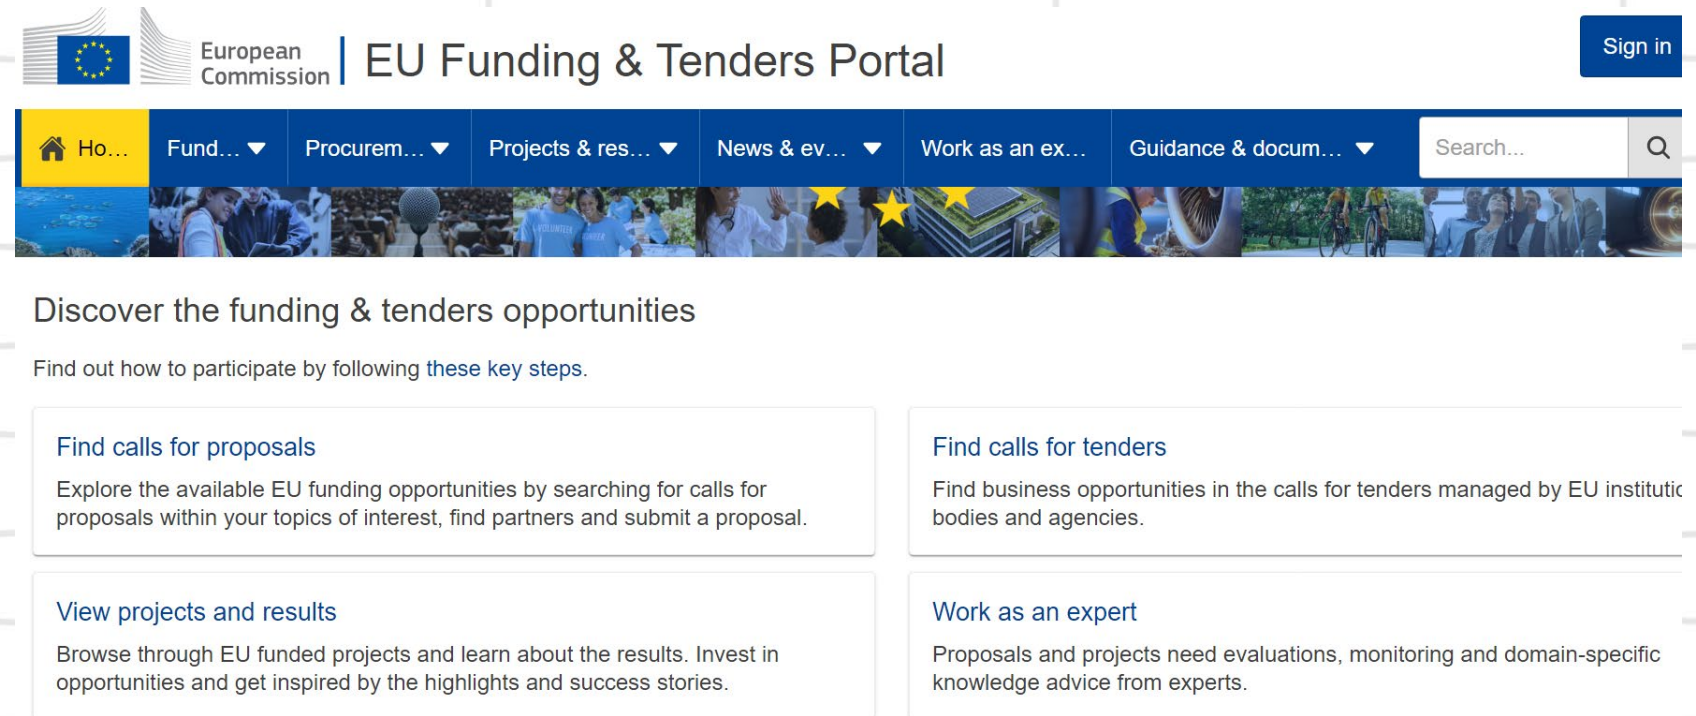

Step 4: Create a proposal and invite consortium members to the application

Step 5: Follow up your proposal

# Step 1: Identify a Call for Proposal

- Use the [Funding and Tenders Portal](#) to search

- Search funding and tenders
- How to participate
- Projects & results
- Work as an expert
- Support

- The [Online Manual](#), [Program Guide](#), and [Work Programs](#) will help you with any questions you may have regarding funding opportunities and the application process.

## Step 2: The Consortium

### Consortium Requirements:

- You must apply as a team of at least **3 partner organizations** from **3 different EU or associated countries**. At least one of the 3 partners must be from an EU country;
- Leadership of each consortium has to be EU or associated country;
- Some calls for proposals require a so-called **multi-actor approach** (e.g., a diverse set of stakeholders, including end-users);
- A list of **countries eligible to participate** in Horizon Europe funding calls can be found [here](#).

# Horizon Europe Eligible Countries

- All EU countries
- Most low- to middle-income countries are automatically eligible for funding
- Third countries associated to Horizon Europe: Several non-EU countries are eligible to participate in Horizon Europe through various mechanisms

|                                   |                      |                        |                    |
|-----------------------------------|----------------------|------------------------|--------------------|
| <b>Albania</b>                    | <b>Faroe Islands</b> | <b>Montenegro</b>      | <b>Switzerland</b> |
| <b>Armenia</b>                    | <b>Georgia</b>       | <b>Morocco</b>         | <b>Tunisia</b>     |
| <b>Australia</b>                  | <b>Iceland</b>       | <b>New Zealand</b>     | <b>Turkey</b>      |
| <b>Bosnia and<br/>Herzegovina</b> | <b>Israel</b>        | <b>North Macedonia</b> | <b>Ukraine</b>     |
| <b>Canada</b>                     | <b>Kosovo</b>        | <b>Norway</b>          | <b>UK</b>          |
|                                   | <b>Moldova</b>       | <b>Serbia</b>          |                    |

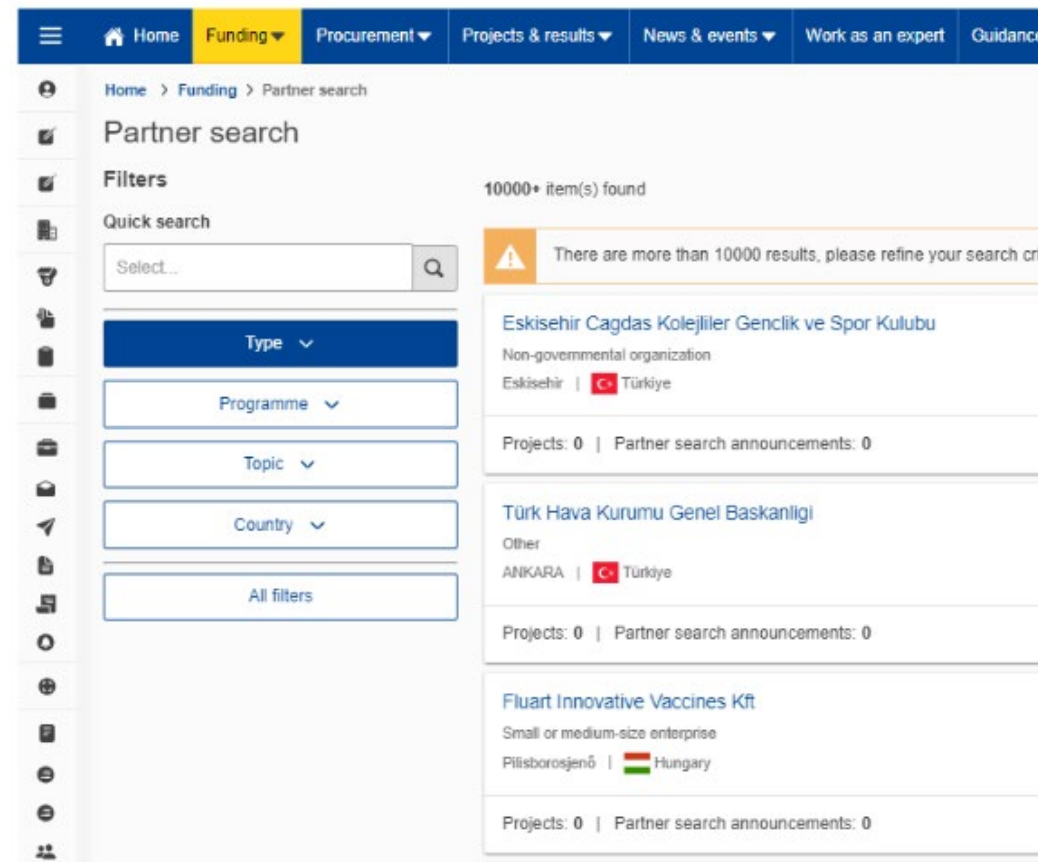

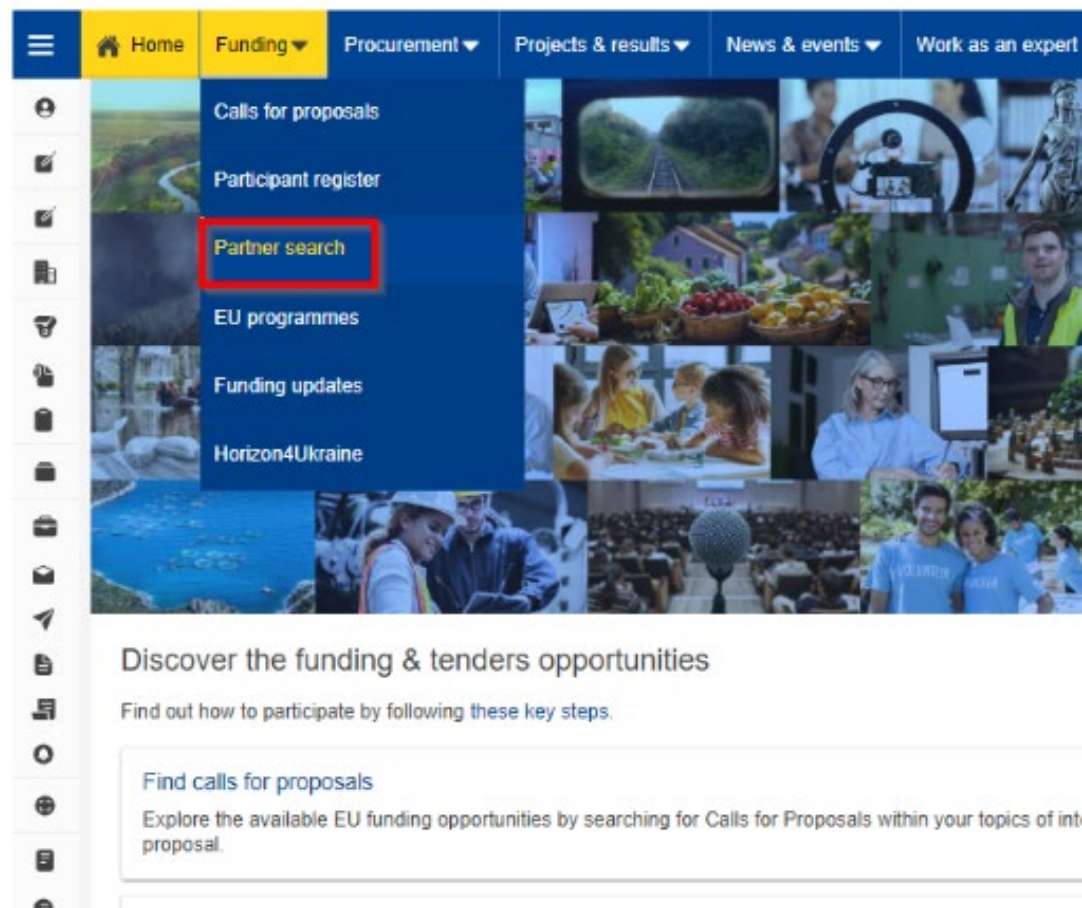

[List of Participating Countries in Horizon Europe](#)

# Finding Partners

1. Consider your connections and current international partners
2. Contact our International Office
3. Matchmaking supports from
  - Brokerage events organized by EU Commission
  - [Canadian National Contact Points](#)
  - Private and public agencies
4. Use the [Partner Search](#) option on the [Funding and Tenders Portal](#)

Use the [Partner Search](#) to select an organization based on their profile or their previous participation

# Step 3: Create an EU Login Account in EU Funding & Tenders Portal

# Find how to participate through [IT How To](#)

## How to Participate

Learn all that you need to apply for EU funding, from how to register your organisation to how to submit your proposal, including how to manage the roles and access rights to your organisations, proposals and future projects.

## Manage your Grant

All IT support information to help you with the signature of your Grant Agreement, as well as the management of your project in the IT tools: amendments, continuous and periodic reporting, communication with the granting authorities, audits, etc.

## Work as an Expert

Learn all you need as an expert, from the registration process, including how to read and sign your expert contracts and how to draft and submit payment requests, to how to evaluate the proposals assigned to you using the IT tools.

## Part 5

What can IO do for you?

# IO Team Support

- Search for suitable calls/topics and digest key elements with you
- Search for international partners (Horizon channels, government networks, USask partnerships ([iMap](#)), SciVal analysis)
- Help connect you with potential internal collaborators
- Help link you with external supports ([National Contact Points](#) & [EURAXESS North America](#)) and resources (toolkits, webinars and networking events)
- Liaise with internal administrative resources (Ethics, Financial, IMP, IT Security, RASI, RDM, Research Security, TLSE)

# **We look forward to working with you**

Please contact us at:

international.office@usask.ca

(Please subscribe to [USask Research Listservs](#))
